

# Commercial Space

*Located on the first floor, right off sidewalks lined with flickering gas lamps, is part of what makes Village life so unique. Space for businesses, shops, and restaurants is provided for Village residents as well as the larger local marketplace.*

*Each inviting space features large, arched windows and doorways. They are nicely appointed inside and out, creating an appeal for the upscale beach customer. Retail space at The Village offers a rare chance to be at the center of one of the most desirable locations along the entire Gulf beach region. This exceptional opportunity provides a built-in market of customers eager to find goods and services at their convenience.*
